ABOUT SHREEJI ORTHOPAEDIC APPLIANCES

At Shreeji Orthopaedics, we take a different approach to provide prosthetics & orthotics services. We have put "better care" for our patients, partnering clinics and hospitals at the centre of our approach. We believe that our programs and services represent the first few steps on the journey to a better rehabilitation experience.

The best technologies and techniques in the world are now easily accessible to the disabled community in India. SHREEJI ORTHOPAEDICS to be a part of this revolution which has been established in Ahmedabad since 1998.

After having gone through a successful Prosthetics & Orthotics training from the 'International Society of Prosthetic & orthotics, we want to bring similar experience for our patients.

We make it mission and task to improve the daily life of people with disabilities through up-to-date, innovative and high-quality prosthetic devices. In order to meet

all the fitting demands for prosthesis and orthosis. We offer a time-proven, comprehensive delivery and performance program. The many different designs of orthosis which clinically proven and result oriented. Many different models of prosthesis feet, adapters, liners, knee and hip joints as well as prosthesis accessories allow finding the best possible individual solution for every user and every Orthotic and prosthetic fitting.

Shreeji orthopaedics helps the users to lead a normal life in the shortest possible time. We provide services through our well qualified and experienced professionals to patient's satisfaction.

To meet the standard of quality of prostheses we are associated with multinational companies from Germany, UK, USA, and Japan.

We provide a complete range of prostheses and orthoses. It ranges from light weight exoskeleton prosthesis to hi-tech modular limbs.
